

Paraffin Heater PT

Intended Use

Heating and tempering of paraffin and paraffin fango for physiotherapeutic purposes

Equipment

- Powder-coated steel housing
- All-round isolation
- Aluminium vessel
- Thermostatic temperature control
- Temperature range from room temperature to 85 °C
- High temperature treatment 135 °C
- Safety temperature limiter
- Power On indicator lamp
- Removal of paraffin / paraffin fango with a ladle

Technical Data

Dimensions	Article number 0005.015
Width	330 mm
Depth	330 mm
Height	420 mm
Vessel volume	17,5 l
Filling Capacity	~ 10 kg Paraffin fango ~ 20 kg Paraffin
Nominal Voltage	230 V
Heating Capacity	1000 W

All dimensions are given in SI units
