

Stands SST / SSU / SSV

Medical Device Class I

Intended Use

Mobile carrier system for infrared spots in physiotherapy

Equipment

- Powder-coated steel frame
- Frame colour white/black (other colour combinations at extra charge)
- 4 steerable castor rolls with parking brake
- Stepless height-adjustment from 1640 to 2040 mm (top edge stand)
- Lifting support with gas spring
- Front height of stand base: 60 mm (SST) or 65 mm (SSU and SSV) (fits under most treatment couches)
- Connector for infrared spots with Ondal-coupling
- Maximum load 12,2 kg
- Optional with T-base, U-base or V-base

Technical Data

Device	SST	SSU	SSV
Article Number	0069.010	0068.010	0072.010
Length (mm)	820	800	810
Front width (mm)	780	800	820
Rear width (mm)	570	800	570
Minimum height (mm) (top edge stand)	1640	1640	1640
Maximum height (mm) (top edge stand)	2040	2040	2040
Front height of stand base (mm)	60	65	65
Nominal voltage (V)	230	230	230

All dimensions are given in SI units
