

Wall Arm HWA

Medical Device Class I

Intended Use

Wall-mounted carrier system for infrared spots TGS and IRS in physiotherapy.

Equipment

- 2-part Wall Arm, consisting of extension arm and spring arm
- Frame colour white
- Continuous swing radius of the extension arm with 180°
- Continuous height adjustment of the spring arm for +35° to -55°
- Load range 8-13 kg
- Maximum radius of action 1,550 mm

Technical Data

Weight	8,5 kg
Load range	8-13 kg
Radius of action	1550 mm
Maximum angle of inclination way up	35 °
Maximum angle of inclination way down	55 °
Nominal voltage	230 V
Power frequency	50 Hz
Cross section of the power cable	3 x 1 mm ²

All dimensions are given in SI units
